

2009 CHICAGO YACHT CLUB RACE TO MACKINAC LAKE MICHIGAN HARBOR CONTACT INFORMATION

On your return trip from Mackinac Island, you will likely want to go at a more leisurely pace, stopping in different harbors at night. This document contains information that we have been able to gather about many of the common "Mac back" destinations. This information is being provided to Race participants as an unofficial resource. **Chicago Yacht Club makes no representations regarding the accuracy of this information.**

A few tips for your return trip:

1. Many boats leave on Wednesday morning. If time permits, we suggest that you leave at an alternate time. You will likely experience less congestion during your trip home.
2. Always call the marina in your intended destination prior to arrival, and ensure that the facility will suit your needs. While we have done our best to pull together relevant information regarding each harbor, we may have missed some amenities or other information. (If you find an error or discover some information that should be included for next year, please e-mail us at racecoordinator@chicagoyachtclub.org.)
3. Always consult the most current charts, notices to mariners, and other relevant navigational resources available. We encourage you to pay particular attention to water levels in each harbor, as lake levels are still relatively low.
